 **GOLDEN**

POSITIONING YOU FOR LIFE

All Golden lift chairs are Class II Medical Devices.

Rich Golden pictured with his children, third generation Golden Team Members! Pictured left to right: Rich Jr., Alyssa, Rich & Mike.

A MESSAGE FROM RICH GOLDEN, CEO

Since 1985, we have produced power lift and reclining chairs that push the boundaries of expectation. My father, Robert Golden, Sr. and his friend, Fred Kiwak, had a shared vision to build the most advanced, comprehensive, and comfortable chairs ever created to serve the medical market with a mission to "Build It Right The First Time," a commitment that still holds true today.

Learn about our patented positioning options and seating technology to understand why you will have the best comfort experience of your life! MaxiComfort® Positioning created the original Zero Gravity lift recliner. Our Twilight Tilt Technology was the first to offer the ability to elevate your legs above the heart while evenly distributing bodyweight between the seat and back.

Golden is the only lift chair manufacturer to offer a Straight Lift option designed to allow for other safe transfer options with the aid of a caregiver by lifting straight up instead of tilting forward when getting in and out of the chair. Plus, our SmartTek® Diagnostic System, standard on all Golden recliners, uses LED lights to help diagnose the electrical health of the chair.

We are proud to manufacture America's favorite power lift recliners - for your family, and ours.

Golden Quality

GOLDEN'S POWER LIFT RECLINERS ARE AMERICA'S #1 BRAND!

1 STRONGEST IN THE INDUSTRY

- Northern maple or a blend of furniture grade hardwood frame on all stress points
- Double doweled at stress points
- Reinforced mitre blocks
- Stapled and glued

2 SUPER SUPPORTIVE

- Hand-blown, overstuffed, conjugated microfiber dacron fill

3 POCKETED COIL SEATING

- (Standard on most models.)

4 LONG LASTING SEAT SPRINGS

- 5 standard, 8-gauge springs

5 STRONG & LONG LASTING

- 9-gauge steel scissor mechanism

6 STABILITY & SUPPORT

- Adjustable anti-skid feet, rear landing legs*
- (*Available on select models.)

OUR VISION...

To build the most innovative and comfortable products that put you and your family's lives in motion.

All Golden lift chairs are Class II Medical Devices.

Golden Innovation

Golden holds multiple **PATENTS** on our technology, allowing us to offer an **EXCLUSIVE** comfort experience.

THE ORIGINAL Lift Chair with **PATENTED MaxiComfort®** Positioning

The ORIGINAL Lift Chair with **PATENTED Twilight Tilt Technology**

The **ONLY** Lift Chair with **PATENTED SmartTek®** Diagnostic System

(Standard on all models.)

The **ONLY** Lift Chair with **Straight Lift Option for Safe Transfer**

(Standard on all models.)

Golden Comfort

Golden's patented "Comfort Zones" have revolutionized how consumers think about comfort positioning. These are exclusive, adjustable and supportive zones to offer a stress-free recline experience. Take a test drive and feel how you'll increase your body's wellness and optimize the feeling of comfort.

Zone 1 helps provide ergonomic relief to the muscles and joints in your lower body with the four-way motion of the seat and adjustable footrest.

Zone 2 allows stress and strain to be released from your upper body by adjusting the backrest to suit your needs. This combined with Zone 1 creates our **PATENTED MaxiComfort®** Positioning.

Zone 3 helps relieve strain or tension with an adjustable headrest that supports the natural positioning of your neck, shoulders and spine.

Zone 4 offers adjustable lumbar support to help take pressure off your spine while giving your lower back muscles a chance to rest and rejuvenate.

Zone 5 helps to encourage circulation, release muscle tension and alleviate joint pain with the first-of-its-kind, **PATENTED Twilight Tilt Technology**. This feeling of weightlessness moves you into a zone of comfort that you never felt before!

GOLDEN

Brent S. | Google Review

"The Brisa upholstery is important. I was immobile and had to sleep in my chair while recuperating from an injury. This chair has had me in it every day and night and it looks great, functions perfectly, and is easily the most comfortable piece of furniture in the house."

Golden Offers The Highest Quality Recliner Fabrics

As the world's most outstanding breathable performance fabrics, Brisa® and Brisa® Distressed deliver unmatched comfort and durability. With a supple hand, softly textured aesthetic, and inherent ventilation system to promote air circulation, Brisa and Brisa Distressed are simply designed to do more.

Our Luxurious Brisa® Fabric is Crafted with Takumi™ Technology

Taking its meaning from the Japanese word 'artisan', this innovative process engineers mastered performance directly into each layer - combining them into one unified system that assures enduring bond strength and longevity.

Surface Layer

Adds extreme durability with ease of care and low maintenance. Protects from stains. Liquid and moisture repellent.

Topskin Layer

Unique polycarbonate resins, engineered for maximum hydrolysis resistance. Quality pigments for lasting color vibrancy.

Microfoam Layer

Polycarbonate foam structure for added comfort. High moisture transfer provides ultimate thermal comfort for body climate regulation.

Substrate

Reinforced rayon fibers, or blends, provide dimensional stability. Superior foundation delivers high performance and upholstering ease.
